PROFESSIONAL EXPERIENCE

Jakson Limited

Graduate Engineer Trainee | Feb 2024 - Present

- Migrated data from a local server to SharePoint**, ensuring seamless data transfer, improved accessibility, and organization. Streamlined the process for enhanced collaboration and data management within the organization.
- Implemented ITAM and ticketing tools using Zoho**, configuring workflows, templates, and automating processes. Streamlined IT asset management, support operations, and ensured efficient workflow execution and issue resolution.
- Managed daily operations of Azure Active Directory and Office 365**, ensuring seamless user management, security compliance, and system performance. Provided support for identity, access, and cloud service administration.

PROJECTS

Smart India Ayush Portal

A website portal for startups in AYUSH ministry to encourage and support startups and create better matchmaking algorithms. Developed a single stop platform for all stakeholders.

Todo list with User Authentication

Worked on building a secure web application for managing to-do lists with user authentication in Django, allowing users to create, edit, and organize tasks while ensuring data privacy and user-specific access.
